Program Educational Objectives of CE

This education is meant to prepare our students to thrive and lead. During their progression, our graduates will

PEO 1: Graduates of the programme will be successful in technical and professional career.

PEO 2: Graduates of the programme will have proficiency in solving real time Civil Engineering projects.

PEO 3: Graduates of the programme will continue to engage in life-long learning with ethical and social responsibility.

Program Outcomes

Graduates of the Civil Engineering programme will be able to

- a. Apply knowledge of mathematics, science and fundamentals of Civil Engineering.
- b. Analyse problem and interpret the data.
- c. Design a system component, or process to meet desired needs in Civil Engineering within realistic constraints.
- d. Identify, formulate, analyse and interpret data to solve Civil Engineering problems.
- e. Use modern engineering tools such as CAD and GIS for the Civil Engineering practice.
- f. Understand the impact of engineering solutions in a global, economic and societal context.
- g. Understand the effect of Civil Engineering solutions on environment and to demonstrate the need for sustainable development.
- h. Understanding of professional and ethical responsibility.
- i. Work effectively as an individual or in a team and to function on multi-disciplinary context.
- j. Communicate effectively with engineering community and society.
- k. Demonstrate the management principles in Civil Engineering projects.

- i. Recognize the need for and an ability to engage in life-long learning.

Program Specific Outcomes (PSOs)

PSO1: Recognize the need for a sustainable environment and design smart infrastructure considering the global challenges.

PSO 2: Create and develop innovative designs with new era materials through research and development.
